Time Clock Plus (TCP)

HARRIS
LOCAL GOVERNMENT

Introducing Time Clock Plus: Your All-in-One Time and Attendance Management Solution
Say goodbye to the hassles of manual time tracking and embrace the efficiency of Time Clock Plus. Our cloud-based time and attendance solution is designed to simplify the way you manage employee time, making it a breeze to handle all your attendance needs with just a few clicks.
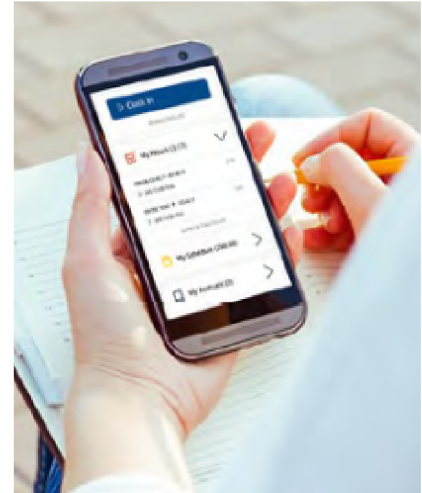

FEATURES

- Gather time and attendance data from multiple sources, including cloud-based and mobile applications, biometric devices, and traditional time clocks.
- Safely store and manage employee time and attendance data in one secure and centralized location.
- Access comprehensive reports that provide valuable insights into labor costs, compliance issues, and facilitate informed business decisions.

Tailored for local governments seeking enhanced time and attendance management, Time Clock Plus is not only powerful but also remarkably user-friendly and cost-effective.

Explore the Versatility of Time Clock Plus:

- Leave Management: Track employee leave, whether it's vacation, sick leave, or personal time off, with utmost ease.
- Time Approvals: Streamline the process of approving or denying employee time requests directly from the Time Clock Plus dashboard.
- Reporting: Benefit from a diverse range of reports that enable you to monitor labor costs, ensure compliance, and make well-informed business decisions.
- Dashboard: Gain a holistic view of your time and attendance data through the intuitive Time Clock Plus dashboard, providing you with real-time updates on time clock exceptions, employee events, and reminders.
- Simplified Usage: Even non-technical users can navigate Time Clock Plus effortlessly, ensuring a seamless experience for all users.
- Cost-Effective: Time Clock Plus is an affordable solution tailored specifically for the needs of local governments.
